Education

B.Sc. in Statistics and Data Science <i>Universidade Federal de São Carlos (UFSCar)</i> São Carlos, SP, Brazil	2025 – Dec. 2028 (Expected)
Bachelor of Science and Technology — Incomplete <i>Universidade Federal do ABC (UFABC)</i> Santo André, SP, Brazil	Weighted Average: 7.72/10 2024 – 2025

Research Experience

CNPq Undergraduate Research Fellow <i>Universidade Federal de São Carlos (UFSCar)</i> Project: Genotype–phenotype graph learning using Random Forests and stability selection. Thiago Ramos.	2026 – Present
• Develop methods for graph learning in high-dimensional genotype–phenotype data using Random Forests and stability selection. • Implement experiments with repeated subsampling, permutation importance, feature selection, and graph construction. • Build the research pipeline in Python using Pandas, NumPy, Scikit-learn, and NetworkX.	

Professional Experience

E-commerce Manager <i>Brás & Cia Comércio de Roupas e Acessórios LTDA</i>	Jun. 2025 – Jun. 2026
• Managed e-commerce operations, including product listings, sales monitoring, online channels, and process automation. • Analyzed sales and business performance data to support operational and commercial decisions. • Contributed to improvements in the e-commerce operation during a period in which revenue increased by more than 150%.	

Selected Projects

Marketplace Promotions <i>Python, Streamlit, Pandas, NumPy</i> Developed a web application to analyze marketplace product data, compare products, and identify pricing and promotional opportunities.	2025 – Present
Personal Finance Control <i>Python, Streamlit, Plotly, Turso</i> Built a web application for tracking expenses, recurring transactions, financial goals, and monthly spending through an interactive dashboard.	2026

Academic Experience

PET Estatística — External Relations Member <i>Universidade Federal de São Carlos (UFSCar)</i> Participate in academic, scientific, and outreach activities and support external communication and partnerships organized by PET Estatística.	2026 – Present
--	-----------------------

Technical Skills

Programming: Python, SQL, R (basic)	
Data Science: Pandas, NumPy, Scikit-learn, Matplotlib, Plotly, Streamlit, NetworkX	
Data & Tools: Statistical modeling, exploratory data analysis, Power BI, Excel, SQLite, Git, GitHub, Jupyter Notebook, Linux, LaTeX	
Languages	
Portuguese: Native	English: Advanced
